

State Grant Background

THE STATE GRANT PROGRAM HELPS STUDENTS AFFORD THE COLLEGES THAT BEST MEET THEIR NEEDS.

The State Grant program:

- > Targets low- and middle-income families
- > Supports all college options
- > Has statewide impact
- > Holds down additional borrowing
- > Invests in the state's economy by building the future workforce

80,000 students from across Minnesota receive a State Grant.

And they go to all kinds of colleges.

BETHANY LUTHERAN COLLEGE

252 State Grant recipients were on campus last academic year — that was **31 percent** of all Bethany undergraduates.

The average State Grant award at Bethany was \$5,258.

In total, **more than \$1.3 million** in State Grant awards were made to Bethany students.

“Receiving the State Grant impacts my education at Bethany by letting me have the opportunity to attend a small Christian college where the professors really care about their students. Without the grant, going to college would be stressful because I am paying for my own education and with the grant it takes off a lot of stress. I am truly blessed that I received the State Grant.”

Equity & Prosperity: A Student Aid Agenda

We ask Governor Walz and the Legislature to invest in college students through the State Grant program.

2020 Request

Reduce the share of costs the state expects students to pay for college with a \$24 million investment in the State Grant program. This would:

- **INCREASE THE SIZE OF GRANTS FOR ALL CURRENT RECIPIENTS**
- **GIVE AWARDS TO 3,500 NEWLY ELIGIBLE MINNESOTA STUDENTS — most with family incomes below \$50,000**

Benefits

Acting now to reduce the student share would lower the amount students need to borrow or earn from working. The result would help keep college affordable for low- and middle-income Minnesotans. This investment would also help address racial disparities in college completion, as the Minnesota Education Equity Partnership (MnEEP) recommended in a January 2020 policy brief.

STATE GRANT 101

The State Grant program is the only way the state of Minnesota targets funds to college students based on their financial need. Recipients:

- Earn bachelor's degrees, associate degrees and certificates
- Attend part-time and full-time
- Attend private and public institutions
- Are recent high school grads and adult learners

“In the arena of financial aid, assistance to those who need it most will boost the national economy. And need-based aid for college helps achieve the separate social goal of greater equity.”
