Why consider Minnesota Private Colleges?

We have generous transfer credit policies this ensures that more of students’ coursework applies directly to their bachelor’s degrees. By working with our transfer counselors, students can plan their degree and stay on track to graduate without extra time or cost. That means our students finish their degrees efficiently and get on to their careers or graduate programs.

FACULTY MENTORS
With campuses that boast of one professor for every 12 students, our undergrads will have direct connections with experts in their fields. Majors can be tailored to students’ interests as faculty advise students in degree planning. They provide high-impact learning opportunities that build out students’ resumes and provide guidance for their next steps after graduation. At Minnesota Private Colleges, students are never just a number.

CONNECT WITH PEERS
Our colleges and universities have multiple ways students can connect with others after transferring. Whether students’ interests lie with sports, the arts, academics or clubs, our staff will help them connect with the right groups quickly, so they feel at home sooner.

PREPARE FOR WHAT’S NEXT
With more than 150 majors and minors we have a degree that’s right for each student, so they can pursue what they’re passionate about and start a career. Our career development offices assist students with setting up internships, preparing for job interviews and connecting directly with employers.

BACHELOR’S DEGREES MATTER
Over the course of their careers, graduates with bachelor’s degrees earn significantly more than high school graduates. The wage gap between college and high school graduates has never been greater: People in Minnesota with bachelor’s degrees earn about $25,000 more per year than those with a high school degree. The average return on investment for undergraduate students at our colleges is $1 million; this takes into account both education costs and 40 years of future earnings.

And the benefits aren’t just financial. College graduates often mention the friendships and connections they made as a highlight of their experience. And Minnesota Private Colleges have great alumni networks—giving students access to people at companies nationwide who are doing exciting work.
The Transfer Advantage

BLOCK TRANSFER OPTIONS
For community college students who have completed the Minnesota Transfer Curriculum (MnTC) or earned an associate of arts degree, block transfer can make things simpler. The Minnesota Transfer Curriculum and Associate of Arts degrees meet core curriculum or general education requirements at 12 of our institutions. And if the minimum GPA is met for each course, all 60 credits will transfer.

Find more helpful information on this on the institution-specific profile pages that follow, including about how credit transfer works. Then follow-up with the transfer specialists at our institutions with any and all questions.

All 18 of our colleges and universities accept transfer credits that meet specific criteria. The details are listed on each college’s page. For students who have not completed the MnTC or are transferring from other four-year institutions, determining how existing coursework will be handled for transfer is based on a course-by-course review.

TRANSFER ADMISSION GUARANTEE
For students who have completed an Associate of Arts (AA) degree and the Minnesota Transfer Curriculum (MnTC), admission is guaranteed at 12 of our member institutions—given students have met all eligibility criteria and there is capacity within the intended major at selected institutions.

We recognize that Minnesota State community college graduates have received a rigorous, quality education and are prepared to successfully complete a bachelor’s degree at our institutions.

Released in the fall of 2022, the Guarantee assures students of acceptance at their intended college or university. And it helps students start planning sooner for specific bachelor’s degrees.

For more details about this policy, refer to mnprivatecolleges.org/transfer-guarantee. And students should talk to the transfer specialists at our institutions about what the Guarantee means for them.

TRANSFER PATHWAYS
As of fall 2022, 12 of the Minnesota Private Colleges have created transfer pathways in psychology for students coming from Minnesota State community colleges. Additional pathways in other majors are available at specific institutions, with more being developed.

Students who have completed approved pathways and are admitted to any of our 12 participating institutions will see exactly how their courses transfer in and what is left to complete the degree. All 60 credits will be applied to the bachelor’s degree if students meet the required 2.0 GPA in each course and follow the prescribed course plan listed in the pathway. These new pathways at Minnesota Private Colleges build on the pathways that already exist among Minnesota State institutions.

For more details about this policy, refer to mnprivatecolleges.org/transfer-pathways. And students should talk to the transfer specialists at our institutions about what the Guarantee means for them.

Review the school’s information to see if they offer any transfer pathways. To access the full list of participating colleges and universities and the specific pathways they offer, refer to mnprivatecolleges.org/transfer-pathways.
These institutions have the Guarantee in place—and award block transfer for students having completed the Minnesota Transfer Curriculum or Associate of Arts Degree.

Transfer students are thriving at the 18 Minnesota Private Colleges.
Can I afford it?

Most students and their families are surprised to learn that need-based grants, scholarships, low-interest loans and work-study opportunities are available at private colleges to help cover tuition, fees, room and board, books and miscellaneous expenses.

Our institutions provide $730 million in institutional grants and scholarships each year. Transfer-specific scholarships range from $2,000 to $32,000.

Realize, though, that the cost of attending college is not just impacted by prices and financial aid. Other factors include degree planning and supporting students to graduate on time. Taking longer than intended to graduate increases costs and means students forgo potential income.

So when looking at their options, students should avoid ruling out a particular college or university based solely on the listed tuition price. It’s key for students to complete the application process for admission and financial aid to learn what the actual cost will be before making final decisions.

Looking to hear more about what may be possible? Reach out — transfer specialists at these institutions are eager to help, including on any financial questions students may have.

FINANCIAL TIPS

- Transfer-student specific grants are available.
- Know the difference between “net price” and “sticker price.” (Many students receive grants and scholarships. When factored in, actual out-of-pocket costs are significantly lower.)
- Always file for financial aid and complete the Free Application for Federal Student Aid (FAFSA).
Minnesota Private Colleges are an important option for transfer students.
Ask many college students how they chose their school and they’ll tell you they “just knew” when they visited and were surrounded by the students, staff, faculty and community. It’s a good idea to visit different kinds of institutions—different sizes, settings and types—so students have a good basis for comparison. Virtual visit options are also available at each college or university.

Students can check out colleges’ website or call transfer specialists with their questions. Contact information is listed on each college’s page. Then take the next step by reaching out to college admissions offices to learn more, including about application requirements and scholarship deadlines.

And for community college staff, reach out to the Council at colleges@mnprivatecolleges.org if you ever are seeking more information and ways to connect with transfer-focused staff at our institutions.

TRANSFER BY THE NUMBERS

Transfer students are thriving at the 18 Minnesota Private Colleges.

2,200 students transferred to our institutions last year.

Transfer students represent 21 percent of all new students on campus.

Transfers come to our colleges from all types of institutions, with 51 percent from community colleges. In addition, 24 percent come from public universities, and 19 percent come from other private nonprofit colleges.

And transfer students represent a wide range of backgrounds; 32 percent of new transfer students are students of color and Native American students.
College profiles for traditional-age undergraduates
Augsburg University offers the opportunity for transfer students to complete their degree in the city of Minneapolis at a university that is small for its students and big for the world. Whether students are transferring from a community college or another four-year university, Augsburg’s transfer friendly curriculum allows for students to pick up where they left off and complete their degree in a timely manner. Augsburg’s faculty, staff, and student services are committed to providing support and student life opportunities for our transfer students and create connections early. Transfer students are able to find community, and will have the resources to be successful academically, socially, and personally at Augsburg.

A student is considered a transfer student if they have completed any college coursework from a post-secondary institution after graduating from high school. A student who has not yet completed 28 semester credits will be evaluated on both high school and college performance. Students who have credits earned through Post-Secondary Enrollment Option should apply as high school senior applicants.

CSB and SJU accept completion of the MnTC or AA degree from a regionally accredited Minnesota college as a block to satisfy our foundational Integrations Curriculum requirements. There are additional Integrations Curriculum requirements that remain to be completed, many that are often attached to other general education or major/minor courses. In order to receive credit for those requirements, the courses must have been completed with a grade of ‘C’ or higher. In addition, we have developed 2+2 pathway options in a number of disciplines and continue to expand those options.

Hamline accepts the A.A. degree and the MnTC if the grade earned in those classes is a C- or higher. Your Hamline Plan requirements (general education curriculum) will be reduced by completing the MnTC or A.A. degree. Students will still need to fulfill the following requirements: one Speaking Intensive course, Writing Intensive courses, a high-impact learning experience, and possibly an additional Fine Arts or Humanities course, Formal Reasoning requirement, and Collaboration requirement. Many of these remaining requirements can be fulfilled within a student’s major/minor requirements.

* Each institution may have some additional unique course requirements, such as language, philosophy or religion courses. Please contact a transfer counselor at the institution to learn more.

**Admissions**
Completed applications receive an admission decision within 1-2 weeks. Admitted students receive an official credit evaluation around two weeks after being accepted.

- Application fee: None
- Application deadlines: Fall term: Mar. 15 (registration benefits), Aug. 1; Spring term: Nov. 15 (registration benefits), Jan. 10
- Other admissions requirements: Official transcripts from each institution attended are required (including credits earned during high school), as well as a Dean of Students form. Hamline is test-optional. Letters of recommendation and/or resumes are accepted but not required.
- Where electronic transcripts must be sent: admission@hamline.edu

**Financial aid**
Financial aid deadlines: Priority deadline to submit the FAFSA is April 1

MCAD values transfer students for the experience, insight, knowledge, and vigor they add to our creative community. You are considered a transfer student if you have graduated from a high school program (or equivalent) and have enrolled at a post-secondary institution. Student taking college courses while still in high school or participating in dual enrollment college classes or PSEO must apply as first-year students and are not transfer applicants. Additionally, we may accept transfer credits from advanced placement (AP), international baccalaureate (IB), post-secondary enrollment option (PSEO) and other pre-college programs.

### Credit transfer & GPA acceptance policy
Course-by-course review. We are selective with transfer credits and may accept up to 30 liberal arts credits and up to 33 studio arts credits with a grade of “C” or better from regionally-accredited post-secondary institutions and pre-college programs. St. Catherine University has one of the largest baccalaureate colleges for women in the nation, a comprehensive lineup of health care programs and an array of nationally and regionally known graduate and associate programs for women and men. St. Kate’s welcomes transfer students into the College for Women (bachelor’s degrees) and the College for Adults (associate and bachelor’s degrees for women and men). Students can choose from more than 100 fields of study and nearly 60 majors, plus 37 more through partnerships with other Twin Cities private colleges— as well as dozens of minors and nine pre-professional programs. The Wildcats compete in NCAA Division III athletics.

Credit transfer & GPA acceptance policy
If you’ve earned credits from a college or university that was regionally accredited at the time you attended, we will help to apply those credits toward a St. Kate’s degree. St. Kate’s offers free official pre-admission evaluations to review your transcripts and estimate how many courses you have left to complete your bachelor’s degree. Courses must be 100 or 1000 level or higher. Your counselor will create your transfer plan—a free guide to how your previous courses will transfer into St. Kate’s, as well as what you’ll need to do to complete your degree. Learn more about credit transfer at stkate.edu/admission-and-aid/transfer/transferring-credit.

At St. Thomas, we have a story to tell.

- A story about a small, liberal arts college that transformed into one of the nation's Top 20 Catholic universities.
- A story about an unprecedented transition to Division I athletics.
- A story about an education that combines the practical with the purposeful—empowering you to make a difference in our Minneapolis-St. Paul community.

It’s a story that's turning the page to a new chapter. And transfer students like you are helping to write it. That's why we’ve made it easier than ever to transfer to St. Thomas—increasing our scholarships and allowing students who complete the Minnesota Transfer Curriculum (MnTC) or an Associate of Arts (AA) degree to satisfy almost all of our core curriculum requirements.

At St. Thomas, we have a story to tell.

**Credit transfer & GPA acceptance policy**

For a comprehensive credit evaluation, contact your admissions counselor. The Accelerated BSN is a 12-month program offering a fast-track to licensure as a registered nurse (RN). This intensive program is ideal for college graduates with a degree in a non-nursing major with a passion for nursing. The program begins in January and ends in December. Sixteen students are accepted each year. Upon successful completion of the program, students meet the qualifications for public health nurse registration in Minnesota, and they are eligible to take the Nursing Candidate Licensure Examination (NCLEX) to become an RN. Our Accelerated BSN student body is diverse. Some students are admitted to the program right after finishing their undergraduate degree and others attend as career changers. Students come to us from many places, with unique backgrounds and experiences; all come with a common goal and the passion to pursue a nursing career.

Programs
Areas of study offered: Accelerated BSN
Program type: Accelerated post-baccalaureate degree for college graduates with a degree in a non-nursing major.
Program schedule: Three semesters (January–December)

Admissions
Admission to Concordia’s Accelerated BSN program is selective. We consider your academic records, professional references, and experiences. We also carefully review your personal statement to determine your character, work ethic and motivation to become an RN.

• Application fee: $60
• Application deadlines: March through September or until the cohort if filled

Other application requirements: Official transcripts from all U.S. regionally accredited institutions (Transcripts are attached to the student’s application in NursingCAS.), two professional references, a current one-page resume and a 500-750 word personal statement

Eligibility requirements: In addition to a completed application and all required material, applicants must meet all of the following criteria to be considered for acceptance:

• Baccalaureate degree in a non-nursing major from a U.S. regionally accredited college or university
• Cumulative GPA of 2.5 or higher on all post-high school work
• All prerequisite coursework with a cumulative GPA of 3.0 or higher (shown on an official transcript) must be completed prior to enrollment in the program.

Cost
Cost per credit: $795

Scholarships
While scholarships are not provided through Concordia College or the Nursing Department, some employers and regional health systems offer assistance. We encourage you to seek out these opportunities.

**WHAT ARE PRE-PROFESSIONAL PROGRAMS?**

Pre-professional programs are not undergraduate majors.

Through on-campus advising, courses across disciplines and other programming, pre-professional programs prepare students to pursue a professional or graduate degree in specific fields after earning a bachelor's degree. A specific major is often not required to prepare for a professional or graduate program.
